General Conditions of Service and Provision of Services

1. Clients and users of JBS Terminais must strictly comply with the Terminal's security regulations, subject to administrative penalties in case of violations.
2. All service prices are expressed in Brazilian Reais (BRL). This price list is valid indefinitely but may be subject to changes with a 30-day prior notice.
3. All service charges will be based on the information provided in this service table and the data used for billing purposes.
4. Cases not covered in this table will be subject to analysis and negotiation between the directly interested parties.
5. Any faults or damages must be reported at the time of transfer of responsibility (i.e., when the container is delivered to the importer's legal representative). Any complaints after delivery will not be considered valid.
6. Isotank containers or dangerous cargoes must be fully scanned as per Brazilian authorities' instructions.
7. Chemical cargoes classified under IMO regulations for international transport and maritime regulations have restrictions. The Terminal does not accept products classified under: Class 1, Class 6.2, and Class 7. Other dangerous goods classifications are subject to approval and evaluation by JBS Terminais.
8. All related services must be paid in cash.
9. Customers with differentiated payment terms will be subject to a credit evaluation before any term is validated by JBS Terminais.

10. The cargo clearance deadline and vessel arrival information are responsibility of the Shipping Line and are subject to change without prior notice. Any costs arising from vessel delays will not be responsibility of JBS Terminais and will be passed on to the client, unless otherwise specified by the Shipping Line.
11. The acceptance of cleared cargo and/or cargo delivered to the Terminal after the Shipping Line's deadline is subject to the Shipping Lines' evaluation, and JBS Terminais is not responsible for accepting the unit for loading.
12. Export cargo receipt begins 5 days before the vessel's berthing. Exact gate opening dates can be checked on our website: www.jbsterminais.com.br. Subject to operational changes without prior notice.
13. All export containers must be delivered using the JBS Terminais online scheduling system, available at: www.jbsterminais.com.br.
14. All import containers must be removed using the JBS Terminais online scheduling system, available at: www.jbsterminais.com.br.
15. Export deliveries can be made 24 hours a day, 7 days a week, except on holidays when JBS Terminais operations are paused, with prior notice.
16. The first storage period begins on the date of unloading/entry of the unit into the yard.
17. After the first period, storage charges are applied daily, with different rates for subsequent periods.
18. Dangerous Goods (classified or not) will be charged an additional 150% on the current storage price and all operational services performed.
19. Oversized cargoes (exceeding height or width limits) will be charged an additional 150% on the current storage price and all operational services performed.
20. Any client using the services of JBS Terminais is deemed to have accepted the conditions and prices listed above, except in cases of separately formalized agreements and negotiations between both parties.
21. The goal is to release cargo within 48 hours (after clearance from documentation and billing departments) of the request. However, longer processing times may occur during high Terminal activity. Clients are strongly encouraged to plan in advance to avoid scheduling difficulties.
22. If JBS Terminais services are paid after the invoice due date, late fees and interests will be charged according to JBS Terminais' billing policy.
23. If an export-import transaction is conducted under the "Ex Works" (EXW) trade term, the invoice will be issued directly to the freight forwarder contracted by the client. The freight forwarder's acceptance of scheduling/booking in the JBS Terminais system (www.jbsterminais.com.br) will be considered confirmation of acceptance of invoicing.

24. Charges for abandoned cargo will be billed to the cargo owner, including reimbursement for incurred service costs and expenses related to disposal and destruction of waste. In transshipment cases, costs will be charged to the Shipping Line. In the case of auctioned cargo, storage charges will be applied from the moment of forfeiture until the removal of the cargo and will be charged to the winning bidder.
25. Normative Resolution 84/2022 of the National Waterway Transport Agency (ANTAQ) preventively suspended the SSE* charge under Normative Resolution 84/2022. However, during this temporary suspension, priority delivery services for DTC cargo* will remain available, and the following charges will still apply: Storage (Item A), Container Handling (Item D) and Weighing Fee (Item J).
26. Under Article 644 of the Brazilian Civil Code, JBS Terminais, as the custodian, reserves the right to retain cargo under its custody as guarantee for payment of: storage fees, related port services performed, any financial losses incurred during the storage period.
27. For units linked to the DTC (Customs Transit Declaration) regime*, services will be charged according to the rates outlined in this price and services table, and invoices will be issued to the Customs Bonded Warehouse at the container's final destination. The Customs value (used as the calculation base for storage fees) is determined by the sum of the invoice values and "collect" charges stated in the Bill of Lading (BL/CE). The currency conversion rate for DTC cargo valuation* will be based on the Central Bank's official exchange rate (sell rate) on the date of vessel departure from the port where the container was discharged. If the vessel operates on weekends or holidays, the exchange rate will be based on the PTAX sell rate from the last business day before vessel departure.
28. The prices established in this table include applicable service taxes, calculated according to legal formulas and rates.
29. JBS Terminais reserves the right to require advance payments before cargo release, with a cut-off applied every 30 days of storage, if deemed necessary. JBS Terminais also reserves the right to issue retroactive charges for services performed at the Terminal, even after cargo departure.
30. As established in ALF/ITJ Ordinance No. 65/2024, Article 2, the following containers must be scanned, regardless of a request by the Brazilian Federal Revenue Service (RFB): Exports that are shipped, transshipped, or transferred at port Terminals under the jurisdiction of this Customs Authority, and placed under Customs transit procedures with an origin/destination outside the jurisdiction – including in-transit shipments – must be declared as empty upon arrival, departure, and loading onto vessels. Special or hazardous cargo, including isotanks, must also comply with the requirements outlined in this article whenever destined for import, export, Customs transit, or cabotage. Additionally, all national or nationalized cargo transported via cabotage must undergo scanning before being loaded onto a vessel. Subject to modification or amendment of the ordinance by ALF/ITJ without prior notice.
31. JBS Terminais publishes the Terms and Conditions for Port Services, which set out the general conditions for the use of port services, as well as the Ethical Conduct and Anti-Corruption Principles, available on the website: www.jbsterminais.com.br/termosecondicoes.
32. Abbreviations*: CIF (Cost Insurance and Freight), TAD (Transit Accompanying Document), ID (Import Declaration), CTD (Container Transit Declaration), DTT (Transfer Transit Declaration), EIR (Equipment Interchange Receipt), FCL (Full Container Load), FR (Flat Rack), IMDG (International Maritime Dangerous Goods Code), LAR (Late Arrival Request), OT (Open Top), RFB (Federal Revenue of Brazil), SSE (Container Sorting and Delivery Service), TAPS (Simplified Customs Transit Procedure), VGM (Verified Gross Mass)
